

# SUMMARY FOR DECISION- MAKERS

Carmen Scherkenbach, IHDP Editor  
GWSP SSC Meeting, Laxenburg, Austria  
2 October 2012

# Summary for Decision- Makers

## What is it?

- Shortened editions of IHDP's major publications and reports
- Scientific knowledge distilled down to the most applicable and critical findings

# Summary for Decision- Makers

## Structure

1. Preface
2. Background
3. Key Questions
4. Conclusion
5. Key Findings and Recommendations

# Summary for Decision- Makers

## Who is involved?

- Secretariat
- IHDP project(s)
- Editorial advisory board
- Science writer
- Designer

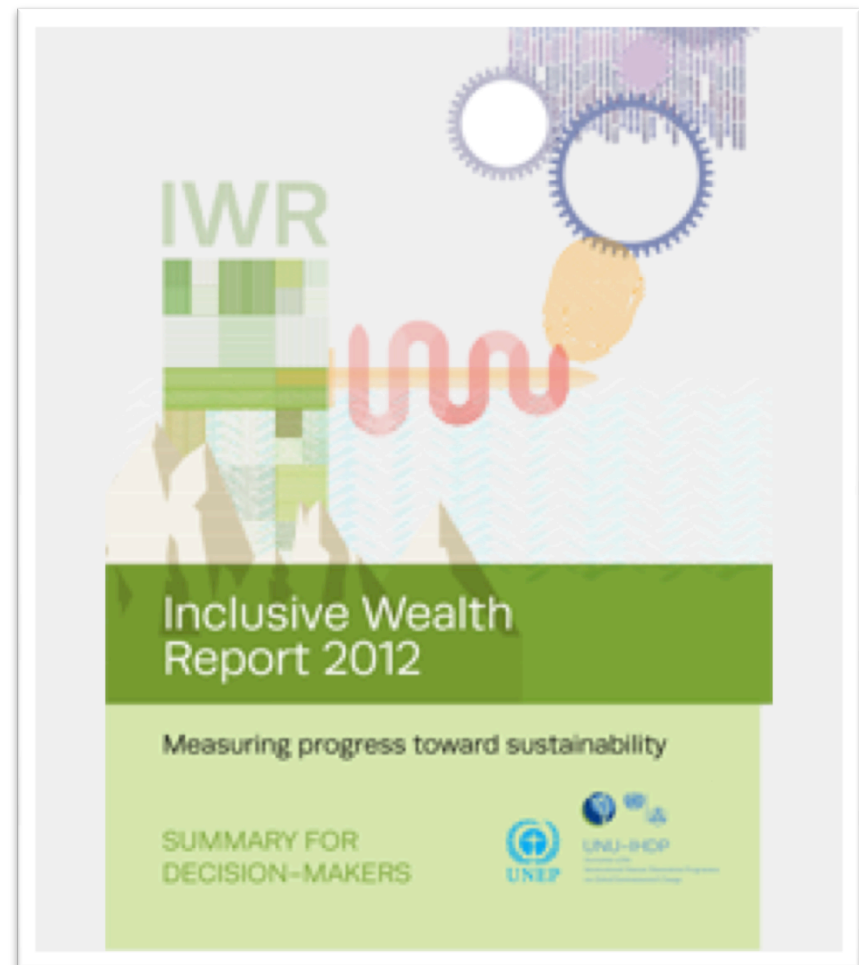

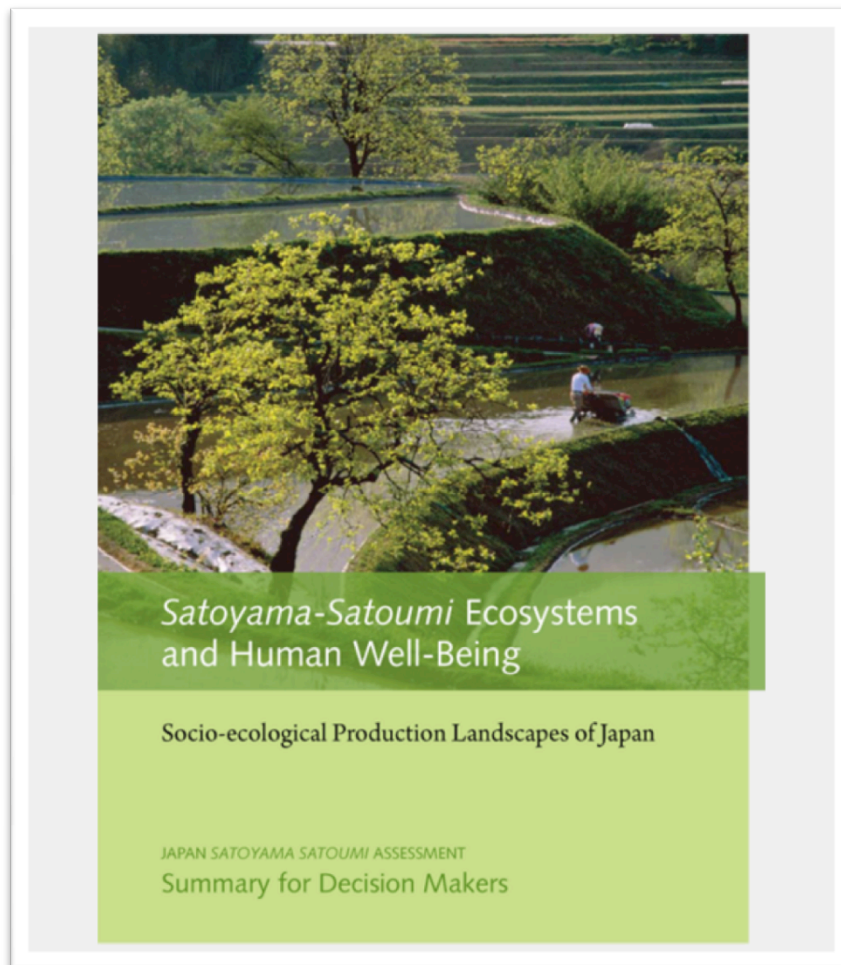

# Summary for Decision- Makers

## Who will read it?

- Policy community
- UN network
- IHDP global network

# WHAT WE HAVE SO FAR

# Summary for Decision- Makers

## **Work in progress**

- Green Economy
- Food Security

# WHAT WE PROPOSE

## **An SDM by GWSP in collaboration with the Global Land Project (GLP)**

### **Topic**

Land degradation and droughts - specifically about the issues relevant for the policy agenda:

- Droughts and their relation to water systems
- Droughts and their impact on human security
- Droughts and their impact on land
- Droughts and their impact on food security

### **Objectives**

To emphasize the policy-relevance of the topic

To make decision-makers aware of the interlinkages between the above

To not only to illustrate latest findings but also to show a positive example of the integration of two research areas, as this is the way we are moving forward with IHDP/Future Earth

### **Timeline**

Ready by late 2013

**THANK YOU!**
